Revisited

A Metrics Suite for Object Oriented Design
Shyam Chidamber and Chris Kemerer
IEEE TOSE Jun 94

What is the theoretical validation?

What is the intuitive validation?

What is the empirical validation?

How can we apply Briand’s

What should be done next?
What are the properties?

Purpose of the article?

Contribution of article?

Was the article useful?

Metric 1: Weighted Methods per class (WMC)

Metric 2: Depth of Inheritance Tree (DIT)
Metric 3: Number of Children (NOC)

Metric 4: Coupling between objects classes (CBO)

Metric 5: Response for a class (RFC)

Metric 6: Lack of Cohesion in Methods (LCOM)
