Dr. Virgil Wallentine
Department of Computing and
Information Sciences
Nichols Hall
UNIVERSITY

Dear Virg:

I wanted to write to you to after our meeting last week with the hearing panel, but things have been somewhat hectic around here with Role and Aspiration, and it has taken me this long to get to you. I appreciate the fact that we were able to work through this process on the relocation of CIS with integrity and mutual respect even though it has been a very difficult issue for both of us. I would like to send you and your faculty colleagues my very best wishes for a successful and productive future in the College of Engineering.

Yours sincerely,

A handwritten signature in cursive script, appearing to read 'Peter'.
